## View from the Chair

As I look out my window at the start of each day recently, I have been mostly pleasantly greeted by sunshine and welcoming weather. I see people out walking or working in their gardens, riding bikes, running and other outdoor activities. This is the time of year that brings hope to most of us, whether it be a beautiful garden of plants or vegetables, a better fitness program or just a brighter disposition! I love Spring!

Our Guest Speaker this month will be Everett's Office of Emergency Management Public Education Coordinator Lynn Sterbenz, who will share with us tips for prevention and recovery in disaster situations. She will talk also about the CERT training program, Map-Your-Neighborhood, and neighborhood Hubs/Caches.

Spring is the time to be on the look-out for homes and businesses which stand out from others, because of how well they look and are cared for. Nominate one or several for a Monte Cristo Award, which the City annually gives out in a selection process, which culminates in a big deal ceremony in September. The nomination deadline is June 15th. Share your neighbor's pride in their home or business with the World! Come to our next meeting, the library or any City office to obtain a nomination form or go online to <http://everettwa.gov/MonteCristo> for the pdf or an online form.

Come join your neighbors at our monthly meeting on Monday, May 16, at 7:00 PM at the EPD South Precinct at Everett Mall Way and West Mall Drive.

¡Sí Se Puede! Yes, We Can!

## What can we do about people who need housing, especially those who are chronically homeless? *City Issues Request for Qualifications to Develop 60-70 Units of Housing*

**Actions:** The City has issued a request for qualifications from service providers and developers to build 60-70 units of low barrier housing within the city. The City has identified a potential property for a future low-barrier supportive housing facility, pending further site analysis and environmental review. The 1.4-acre potential site is located on the east side of Evergreen Way at Pecks Drive. <http://everettwa.gov/CivicAlerts.aspx?AID=491> The property is part of a larger parcel, currently owned by City of Everett Utilities, that also houses Reservoir 3 and Everett Fire's training facility. The plan is for a developer to design, build and operate the facility to provide supportive services and staffing (24/7) located within the housing itself.

### Background - Everett's Safe Streets Plan: Housing

Under the Safe Streets plan, the City is implementing a "Housing First" model to reduce the impact of chronically homeless individuals on the community by providing low-barrier housing coupled with supportive services.

**What is "low-barrier" housing?** Low-barrier housing is permanent supportive housing for homeless men and women with chronic addiction and/or mental health challenges. It is targeted to provide housing and services for individuals who are some of the highest utilizers of City and community resources.
